

I receive K-LOVE via a repeater in our area. I understand that if the LPFM service is approved I may not be able to receive the programming I now receive. This would be a significant loss for me and my family. The airwaves are flooded with trash anti social content already. This anti social programming include anti government, anti American, indecent and immoral content.

The KLOVE station is one of few available without the negative programming. Please do not force this station off the air by approving the LPFM.

This station provides positive, pro-American content and helps stem the tide of negative behavior that the other stations broadcast including "cop killer" and other trash lyrics.

Thanks for your efforts to preserve some excellence in broadcasting!
